**Instructor:** Stacie Crooks, Crooks Garden Design

If you missed the spring version of this class, join us now to experience Stacie Crooks' colorful garden and learn first hand how to transform a resource intensive lawn into tapestries of drought tolerant plantings. Using plants that lend color and structure year round, Stacie has created a garden that not only gets national attention for its beauty, but also fits her busy schedule. Please note that this class is for gardeners who have a basic knowledge of plant types and their names.

*Please sign up for this class only if you have not been in Stacie's garden before. These classes are limited to residents within the Saving Water Partnership area. See [http://savingwater.org/about\\_partners.htm](http://savingwater.org/about_partners.htm) to view this service area.*

This class is offered twice, but limited to 15 students per session as it will take place at the designer's home. Pre-registration is required. **Call the Natural Lawn & Garden Hotline at (206) 633-0224 or email [info@lawnandgardenhotline.org](mailto:info@lawnandgardenhotline.org) to reserve your space.**
